

AVII PARK BENCH

Bench made from upcycled bulwark from old Danish harbours. The wood is certified FSC® recycled 100%, and contains only natural oils. The bench can rotate 360°. Avii allows for different sitting positions, e.g. the top can be used as a table for e.g. a computer or a book.

The slats are produced from leftover wood from Thors Design's existing production, so it also reduces the waste of resources.
